COLORBOND® STEEL
COLOURS FOR YOUR HOME

Colorbond®

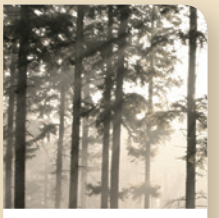
WHETHER YOUR HOME IS CLASSIC OR CONTEMPORARY, CITY OR COUNTRY, COLORBOND® STEEL GIVES YOU THE ABILITY TO CREATE THE RIGHT COLOUR SCHEME FOR YOUR HOME.



WOODLAND GREY®

1 BUILDING YOUR FAMILY'S FUTURE
We understand that you're building more than a house. So as well as making COLORBOND® steel beautiful to look at, we've also made it last beautifully. COLORBOND® steel is one of the world's toughest, most advanced building materials.

SHALE GREY™

2 TRIED AND TESTED
Tested and developed for almost 50 years in some of Australia's harshest conditions, COLORBOND® steel delivers proven durability and long life performance.

3 LOOKS BETTER FOR LONGER
Advanced paint technology in COLORBOND® steel provides your roof with a durable, baked-on paint finish that resists peeling, chipping and cracking.

ROOF COLOUR: SHALE GREY™

4 THERMAL COMFORT
Standard COLORBOND® steel colours include Thermatech® technology[2] reflecting heat from your roof surface. Combined with insulation and good design, COLORBOND® steel can help you keep cool in summer.

5 PEACE OF MIND
Relax. COLORBOND® steel is backed by a range of warranties from BlueScope. To learn more about warranties simply visit bluescopesteel.com.au/warranties[3]

6 FUTURE FOCUSED
Strong and lightweight, steel is well positioned to meet current and emerging environmental and building design regulations and guidelines.

LEGEND

Ⓤ Also available in COLORBOND® Ultra steel for coastal and industrial environments. All other colours are available in COLORBOND® Ultra steel on request, please speak with your supplier.

Ⓢ Also available in COLORBOND® Stainless steel for severe coastal and industrial environments. Please speak to your supplier for more information regarding availability.

SA = Solar Absorptance. The classification of colours in the BCA is based on solar absorptance, which is the inverse of solar reflectance, expressed as a ratio between 0 and 1. A SA value of 0 indicates that a roof absorbs none and a value of 1 indicates that a roof absorbs 100% of the incoming solar radiation. Solar absorptance value is not applicable for COLORBOND® Stainless steel. See the individual colour swatches for the SA value for each product and colour.

BCA = The Building Code of Australia (BCA) has classified roof colour on the basis of their solar absorptance, referred herein as Light (L < 0.40), Medium (M < 0.60), Dark (D > 0.60). See the individual colour swatches for the ratings available for each product and colour. BCA classification is correct at the time of printing but may be subject to change. Check your local state building regulations at the time of your project.

1. The COLORBOND® steel colour swatches and images shown have been reproduced to represent actual product colours as accurately as possible. However, we recommend checking your chosen colour against an actual sample of the product before purchasing, as varying light conditions and limitations of the printing process may affect colour tones. To determine the most suitable material for your project, please contact your supplier or see colorbond.com/create. 2. Excluding Night Sky®. Thermatech® is not available in COLORBOND® Stainless steel. 3. Warranty subject to application and eligibility criteria. For full terms and conditions and to determine the eligibility of your building for the warranty visit bluescopesteel.com.au/warranties or call BlueScope on 1800 702 764. COLORBOND®, Thermatech®, BlueScope and ® colour names are registered trade marks of BlueScope Steel Limited. ™ colour names are trade marks of BlueScope Steel Limited.
